

Ice cream & Tea room

MCV/2

Cream whippers, stainless steel, tank 2 liters

- Production of whipped cream and mousses with high overrun.
- Keeps the cream in perfect conditions preventing phase of separation.
- Consistent refrigeration from the container to the dispensing head.
- Allows interruption of production at anytime.
- Removable tank made of stainless steel, maintains easy and perfect hygiene.
- Schedule production: 100 liter.

TGV/35DA

Automatic vertical batch freezers, to pose, 35 liters/hour condenseur à air

- Vertical batch freezers with automatic extraction.
 - Capacity of minimum mixture 3 liters and maximum 6 liters.
 - Sonor level lower than 70 dB.
 - Vertical cylinder-evaporator for a bigger exchange surface
 - Cylinder with time control or temperature control
 - Exclusive distribution device
 - Auto-diagnostic system. Mix by cycle : 3/6 litres.
 - Duration of the cycle: 8/12 min. Schedule production: 35 litres.
- NB: Only for cold work, delivered on wheels.

SPS/30A

Pasteurization appliance 30L/H air condenser

- Pasteurization appliance for high and low pasteurization.
- Transparent lid.
- Tap fitted with an integrated cleaning system.
- Smart memory which allows repeating, if necessary, the pasteurization cycle.
- Mix by cycle; 15/30 LT.
- Duration of the cycle: 80/100 min.

Ice Cream

CCU/30A

Universal cream/sauce cooker, 15 LT/min, air condenser

- Polyvalent pastorturbine-cooker to cook, temper, pasteurize and freeze every blends or pastry.
- Multilanguage display with 14 pre-programmed cycles and 10 programmable production cycles.
- Different thermal treatments are done in one cylinder, avoiding every manipulation or decanting.
- Possibilities of shaking: slow, quick or casual.
- Automatic memory of the last cycle.
- Mix by cycle: 15/30 liter. Duration of the cycle: 90/130 min.
